

include/comppare/internal
/config.hpp

```
graph TD; A["include/comppare/internal  
/config.hpp"] --> B["chrono"]; A --> C["utility"]; A --> D["string_view"];
```

The diagram illustrates a header file's dependencies. A central box at the top represents the file `include/comppare/internal/config.hpp`. Three blue arrows originate from the bottom of this box and point to three separate boxes below it. These boxes are labeled `chrono`, `utility`, and `string_view`, indicating that the top-level header includes these three other headers.

chrono

utility

string_view
