

comppare::InputContext  
::OutputContext::get\_output

```
graph LR; A[comppare::InputContext  
::OutputContext::get_output] --> B[comppare::InputContext  
::OutputContext::get_output  
_by_name_];
```

A diagram showing a call from a shaded box to a white box. The shaded box on the left contains the text 'comppare::InputContext' and '::OutputContext::get\_output'. A blue arrow points from this box to a white box on the right. The white box contains the text 'comppare::InputContext', '::OutputContext::get\_output', and '\_by\_name\_'.
